Dear Parent/Carer

Educake Homework, Intervention and Revision System

The Science department has purchased access to an online homework, intervention and revision system that is just for Key Stage 3 and GCSE Science. Your child will be emailed their Educake username and password to their school account. Your child can use it on a PC, tablet or smartphone by going to www.educake.co.uk.

Teachers might set homework or revision in Educake or select specific intervention activities for your child. Students can also set themselves tests for more practice. Every question is automatically marked, and students get instant feedback. This allows you and your child to monitor where they are performing well and in what areas they need to develop.

Your child will be contacted shortly with login details via an email to their school email address. If you have any questions, please don't hesitate to contact me.

Yours sincerely

When you use Educake as a student, you see this page first:

Annotations:

- When your teacher has set you a test, it will show up here. Click on it to take it. Your progress is always saved, so you can return to it later.
- Set yourself an Educake test in your course. You'll choose the topic and how many questions you want.
- Look at your progress on different topics here.
- When you finish a test, it'll show up here. Click on a test to go over your results and to see if your teacher has left you any feedback.
- View your individual Educake report, showing you your strongest and weakest topics and lots more.
- Save your mobile number in Educake so you can reset your password if you forget. It's encrypted so we can't see it.
