

# Solution

June 11th 2018

Winner: Eleanor O'Brien 7L

Year 7

Jess Wright

Charlotte Millar

Sophie Holme

Milly Mead

Sam N 7X1

Mia Jousola

Ioan Liley

Sam Todd 7L

Abigail Wright

Thomas Ismay

Daisy Harrison

Imogen Winder

James Tunney

Martin Dawson

Laura Shackley

Sophia Conrad

Tim So

Matthew Dixon

You do the reverse of working out the mean -  
 $6 \times 10 = 60$

This means all the numbers have to add to 60.  
 $1+2+3+4+5+6+7+8+9 = 45$  (We add the smallest  
ones possible to get  
the biggest number)  
 $60 - 45 = 15$
